

A DAY LONG INNOVATIVE TALK FOR STUDENTS AND FACULTY WAS ARRANGED ON “INNOVATION FOR TOMMOROW” ON 19.03.2019 UNDER TEQIP - III BY R.S HIREMATH, CEO, FLEXITRON, BENGALURU AT AUDITORIUM VENUE.

R.S.HIREMATH graduated as a Mechanical engineer (1979 – 85) from PDA College of Engineering Gulbarga. Karnataka, India.

A proud alumni of PDA COLLEGE OF ENGINEERING, he visited the college on 19.03.2019 giving a very aspiring technical talk to the students and faculty on innovations and displayed his tremendous work on technology to uplift poor people at global level on renewable energy and many other innovations that have fetched him national awards and global appreciations.

He interacted with faculty for research development , setting of incubation centre for innovations, entrepreneurship, training involving various approaches , starting with a survey and exploration of their surroundings, identifying issues in their immediate society which require intervention, then the issue is to be seen both from a social and a technical perspective. A technical solution to evolved thereafter using both the educational and social skills of the students.

R.S Hiremath has committed to set up a innovation facility at PDA College of Engineering his alma mater with many of the requirements to be provided by him with active involvement of the Management, faculty and students.

Dr.Bhimashankar Bilgundi President HKE Society and chairman PDA College of Engineering and Governing Council Member Vijaykumar Deshmukh have promised all the support to R.S Hiremath in developing the innovation centre.
